WHISPERING GILLENWATER

ALBUQUERQUE, Sept. 27.—Whispering GilLENWATER, chairman of the state Republican committee, has been arrested by the state police, and is being held in the county jail. The arrest was made on the charge of having been in the company of a woman who was arrested on the same charge. The woman was released on bond, but GilLENWATER remains in custody.

Not, however, Whispering GilLENWATER has decided to continue his fight for a place in the state. He has been extremely moved. In an attempt to convince himself before the people, he has written a long letter to the state police, in which he has explained his position. He has also written a letter to the state police, in which he has explained his position. He has also written a letter to the state police, in which he has explained his position.

Now that the Montezuma Trust company is drawing into the question, it might be well for GilLENWATER to tell us all about it. Albuquerque people, who had money deposited in the trust company, will be interested to learn all about what happened that the bank closed its doors. Heretofore the Herald has refrained from saying a word during this campaign about the Montezuma Trust, or even intimating that GilLENWATER had any connection with the institution. Now that GilLENWATER is out with the fact that the Montezuma Trust is in trouble, by reason of disbursements, among its stockholders, it is only fair to let everybody interested know just what the disbursements were, and what brought them about.

We always gave GilLENWATER credit for being a man of confidence in his own abilities, and admitted his weakness in the face of defeat in political battles. The Herald's attack is the first intimation that GilLENWATER has ever given that he is not as strong as he once was. It is only fair to let everybody interested know just what the disbursements were, and what brought them about.

Mr. GilLENWATER has been in Albuquerque for a long time, and the citizens of the town have been very well acquainted with him. He has been very well acquainted with him. He has been very well acquainted with him. He has been very well acquainted with him.

We will pass it up to GilLENWATER to tell us all about the Montezuma Trust company.

INTERESTING PUBLICATION.

THE Albuquerque Conference Number of the "Herald of the West" country, is off the press and is being distributed as the October issue. This number is a credit to the publishers and indicates a striking manner. The fact that New Mexico is at last on the map as a "real country" and that Albuquerque is in the center of the development of the country is a great achievement. The number is a credit to the publishers and indicates a striking manner.

The citizens of Albuquerque are well known to be of a high order of intelligence and are well known to be of a high order of intelligence. They are well known to be of a high order of intelligence. They are well known to be of a high order of intelligence.

To refer again to the conference to be held here next month, the Evening Herald cannot do better by way of stating the purpose of the "Herald of the West" country, than to reproduce its leading editorial, which follows:

ALBUQUERQUE, Sept. 27.—The Albuquerque Conference will be held under the auspices of the National Association for the Study and Development of the West, and will open on October 12 and 13. The details as to the location and place of sessions will be issued in the issue of the Herald.

We wish to emphasize the importance of this conference and the opportunity that will be afforded the public to become familiar with the different phases of the western development. The session will be held in the city of Albuquerque, and the location and place of sessions will be issued in the issue of the Herald.

The northwest is now recognized as the natural center of the western country. The development of the northwest is now recognized as the natural center of the western country. The development of the northwest is now recognized as the natural center of the western country.

TAXPAYERS' MEETING.

It is the duty of the citizens of New Mexico, and especially of those who pay taxes on any considerable amount of property, to take an interest in the New Mexico Taxpayers' association meetings which are now being held in Albuquerque this week. The association has been for months making extraordinary efforts to get right down to brass tacks and find out what is wrong with the New Mexico taxation system. Taxation is a big problem. Thus far New Mexico has not developed to such an extent that the tax question is as big and as important as it is in other states. But New Mexico is rapidly growing, its resources are being developed.

Nearly every person living in New Mexico to make this state home, intends sooner or later to become a taxpayer. Large of wealth. His paying attention to the taxation laws, and the manner in which they are administered and their effect, in a material way, on the property of individuals and corporations. New Mexico will avoid many serious mistakes made in other states.

THE EASTERN SHADOW.

It is quite true that the real shadow of the new treaty between the United States and Japan has not yet been realized. That the two nations have rapidly been drawn closer together by a combination of antipathy since the close of the Russo-Japanese war is now generally admitted, and this relationship is now becoming closer, as evidenced by the new alliance and the statement of a prominent Japanese statesman that the friendship and not antagonism between the two nations is the policy of Japan.

In view of what is transpiring in Europe at this present time, when thousands of Western European soldiers are being killed, maimed and wounded almost every day, there can be little doubt that previously there was a feeling of sympathy for the Japanese. The feeling of sympathy for the Japanese is now becoming closer, as evidenced by the new alliance and the statement of a prominent Japanese statesman that the friendship and not antagonism between the two nations is the policy of Japan.

There is danger that the Russo-Japanese alliance may become more than a mere alliance. It is not already such. It is not already such. It is not already such. It is not already such.

Traffic Warned Off Quien Sabe Street

Drivers and others intending to be on the downtown streets tonight are warned by the mayor's office that Third street from Third avenue to Silver avenue, and Gold avenue at Third street, will be roped off for the Quen Sabe ball. That is, on that there will be no through traffic on Third street from Third to Silver avenue, and that traffic will not be able to cross town by way of Third street without a driver's license and a driver's license.

CHIPS FROM THE CLAYS

By Peter P. Carney.

Phil Miller of Dallas, Tex., who won the professional trapshooting championship of the Grand American, entered the professional ranks in 1916.

George W. Beck, son of former President Beck, and the original "Beck" brand, is considered one of the best of the modern trapshooters.

At the end of the first year, what was the result? It was a success. It was a success. It was a success. It was a success.

As already said, with the success of these two measures, there will be no need of further action. It is the full success of the plan. And it is the full success of the plan.

It is the full success of the plan. It is the full success of the plan. It is the full success of the plan. It is the full success of the plan.

It is the full success of the plan. It is the full success of the plan. It is the full success of the plan. It is the full success of the plan.

It is the full success of the plan. It is the full success of the plan. It is the full success of the plan. It is the full success of the plan.

It is the full success of the plan. It is the full success of the plan. It is the full success of the plan. It is the full success of the plan.

It is the full success of the plan. It is the full success of the plan. It is the full success of the plan. It is the full success of the plan.

It is the full success of the plan. It is the full success of the plan. It is the full success of the plan. It is the full success of the plan.

There is no doubt, he looks forth in Chicago.

The Grand American Handicap ought to be an effective lesson for those who are not acquainted with trapshooting. It is an effective lesson for those who are not acquainted with trapshooting.

Patrons have been given for the last week of the Atlantic City trapshooting season. Now the season is over. Now the season is over.

When trapshooting is given the same prominence as baseball in the newspapers it will command the respect of the world of American sports.

The New Series FRANKLIN CAR

WHEN you hit a bump and get a jolt, you are feeling the effect of weight in an automobile. Just how big the jolt depends on how much weight.

The Franklin Car is acknowledged to be the easiest riding car in the world. The New Series car is easier riding than any of its predecessors.

The reason for it is lighter weight. Here is a full-size five-passenger car weighing only 2380 pounds—a reduction of 400 pounds.

Think of taking away the jolts and jars of 400 pounds weight from a car already the comfort standard among automobiles!

Pounding against the springs by axles, wheels and tires—the unsprung parts—is minimized by a 30 per cent reduction of weight in the axles alone.

When you ride in the New Series Franklin we are now showing, you will know how weight saving works out in actual use.
